GAS COOKTOP

The Legacy cooktop with sealed gas burners features continuous cast iron grates with matte porcelain finish for moving pans with commercial-style ease. Available in both Natural Gas and Liquid Propane. LP conversion kit included

GLIDE OUT BROILER SYSTEM™

This oven may look unassuming, but it features a powerful 8-pass, 2300 watt broiler element that's heated and ready to cook in just 5 minutes! The Full Broil mode provides complete coverage using the full eight passes. The Half Broil mode uses the four right-hand passes and is perfect when cooking for one. The smooth action sliding runner moves the broiler pan in and out of the oven safely and easily.

7-MODE MULTIFUNCTION OVEN

Offers ultimate flexibility with 7 different cooking modes. Turn the convection off, leave it on or go somewhere in between—you tailor the oven's performance to your needs by selecting from the convection bake, convection broil, fan assist bake, conventional bake, top brown, defrost, or base heat modes.

VERTICAL CONVECTION OVEN (36" MODEL ONLY)

This programmable oven uses true convection to continuously circulate hot air through the cavity for faster, more even cooking. Four heavy duty oven racks and a removable plate warmer provide 1.8 cu. ft. of capacity.

PLATE WARMING RACK (36" MODEL ONLY)

The 36" Legacy features a removable plate warmer that attaches to the convection oven's rack supports.
