

## U-Line Corporation Limited Warranty

**1.** U-Line Corporation ("U-Line") warrants each U-Line product to be free from defects in materials and workmanship for a period of one year (two years on Modular 3000 Series) from the date of purchase. U-Line further warrants the sealed system (consisting of the compressor, condenser, evaporator, hot gas bypass valve, dryer, and connecting tube) in each U-Line product to be free from defects in materials and workmanship for a period of five years from the date of purchase.

**2.** During the initial one year warranty period (two years on Modular 3000 Series) for all U-Line products U-Line shall: (1) repair any product or replace any part of a product; and (2) for all Marine, RV and Domestic U-Line products sold and serviced in the United States (including Alaska and Hawaii) and Canada, U-Line shall be responsible for the labor costs performed by a U-Line authorized service company, incurred in connection with the replacement of any defective part. During years two through five of the warranty period for the sealed system, U-Line shall: (1) at U-Line's option repair or replace any part of the sealed system; and (2) for all Marine, RV and Domestic U-Line products sold and serviced in the United States (including Alaska and Hawaii) and Canada, U-Line shall be responsible for the labor costs incurred in connection with the replacement of any defective part of the sealed system. All other charges, including transportation charges for replacements under this warranty and labor costs not specifically covered by this warranty, shall be the responsibility of the purchaser. This warranty extends only to the original purchaser of the U-Line product. The Product Registration Card included with the product should

be promptly completed by you and mailed back to U-Line or you can register on-line at [www.u-lineservice.com](http://www.u-lineservice.com).

**3.** The warranty listed above does not apply to floor display models. The warranty for these models shall be 30 days from the date of retail purchase and only if U-Line's Product Registration Card included with the unit is completed and mailed back or electronically submitted to U-Line. The 30 day warranty does not apply to cosmetic damages. A proof of purchase may be required.

**4.** The following conditions are excluded from this limited warranty: damage caused by outdoor use; use of cleaners other than the recommended stainless steel cleaners and U-Line Clear Ice Maker cleaner; installation charges; damages caused by disasters or acts of God, such as fire, floods, wind and lightning; damages incurred or resulting from shipping, improper installation, unauthorized modification, or misuse/abuse of the product; customer education calls; food loss and spoilage; door and water level adjustments (except during the first 30 days from the date of installation); defrosting the product; adjusting the controls; door reversal; and cleaning the condenser.

**5.** U-Line's Outdoor Limited Warranty, set forth in this Paragraph 4, shall apply to U-Line models deemed suitable for outdoor use by Underwriters Laboratory ("UL") as noted in the U-Line Product Catalog, U-Line's website and/or on the serial tag located inside the product. Exposure to temperatures below freezing may cause damage to the product. Damage

resulting to the product (and/or the surroundings) caused by this exposure is not covered under this warranty. Such models shall continue to be covered by the warranty terms set forth in Paragraphs 1 and 2 above, to the extent such models:

**A.** Are subjected to temperatures between 50 and 100 degrees Fahrenheit. Although these products will function in ambient temperatures below 50 degrees and above 100 degrees Fahrenheit, performance may decline. Performance degradation due to operating above or below the designated ambient temperature range is not a manufacturing defect and any issues resulting from exposure to higher temperatures, such as spoiled food or low ice production, are not covered under this warranty policy; and/or

**B.** Come into contact with rain by virtue of outdoor use. Exposure to other sources of water shall also cause this warranty to be void, including flooding of the area in proximity of the unit greater than 1/8" deep in water; hurricanes, splashing of pool water; or directing a spray from a hose or similar device into and around the unit.

**6.** If a product defect is discovered during the applicable warranty period, you must promptly notify either U-Line at P.O. Box 245040, Milwaukee, Wisconsin 53224 U.S.A. or at 1-800-779-2547 or the dealer from whom you purchased the

product. In no event shall such notification be received later than 30 days after the expiration of the applicable warranty period. U-Line may require that defective parts be returned, at your expense, to U-Line's factory in Milwaukee, Wisconsin, for inspection. Any action by you for breach of warranty must be commenced within one year after the applicable warranty period.

**7. THIS LIMITED WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE DISCLAIMED.** U-Line's sole liability and your exclusive remedy under this warranty is set forth in the paragraphs above. U-Line shall have no liability whatsoever for any incidental, consequential or special damages arising from the sale, use or installation of the product or from any other cause whatsoever, whether based on warranty (express or implied) or otherwise based on contract, tort or any other theory of liability.

**8.** Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

**Introduction:**

Thank you for the purchase of your U-Line product. To obtain the most up to date information regarding your product, please visit [www.u-line.com](http://www.u-line.com), where you can access and download complete Installation Guides, Use and Care Guides, Wood Overlay Panel Specifications & Installation Instructions, CAD Drawings, Specifications & Feature Benefits and Energy Guides.

Please thoroughly review the following important information:

**Important Safety Precautions:**

**⚠ Read equipment manufacturer's manual and this manual before using this product. Failure to do so can result in serious injury or death.**

**⚠ DANGER** Risk of child entrapment. Before you throw away your old refrigerator or freezer, take off the doors. Leave the shelves in place so that children may not easily climb inside. Failure to follow this warning will result in death or serious injury if a child is entrapped in a refrigerator or freezer.

**⚠ WARNING** ALL U-Line products must be installed using the supplied mounting devices to prevent tip over hazards. Death or serious personal injury could occur if the supplied mounting devices are not installed in accordance with U-Line's installation instructions.

**⚠ WARNING** ALL U-Line Drawer models and 3000 Series models are for built-in application

only. Death or serious personal injury could occur if these models are not built-in and installed in accordance with U-Line's installation instructions.

**⚠ WARNING** Do not use an extension cord on any U-Line product. Failure to follow this warning could result in fire, electrical shock or personal injury.

**⚠ WARNING** Never remove the round grounding prong from a U-Line product's electrical plug and never use a two prong grounding adapter: Failure to following this warning could result in fire, electrical shock or personal injury.

**⚠ WARNING** To maintain operational efficiency, keep the front grille free of dust and lint, and clean the condenser every three months. Disconnect electric power to the unit before cleaning the condenser. Failure to disconnect power to the unit before cleaning could result in personal injury.

**⚠ CAUTION** The unit requires proper air flow to perform at its highest efficiency. Do not block the front grille or internal fans at any time, or the unit will not perform as expected. Do not install the unit behind a door.

**Installation:**

**1.** If your Ice Maker requires a drain (models CLR2160, CLRCO2175 and 3018CLR) install drain first and water line hook-up second.

For all other Ice Makers, install the water line hook-up first.

**CAUTION!** Consult Install Guide for further installation details. Plumbing installation must observe all state and local codes. All water and drain connections **MUST BE** made by a licensed/qualified plumbing contractor. Failure to follow recommendations and instructions may result in damage and/or harm or void the product warranty.

**CAUTION!** U-Line requires the use of copper tubing for installation. Do not use any plastic water supply line. The line is under pressure at all times. Plastic may crack or rupture with age and cause water damage to your home. An acceptable alternative to using copper tubing is the U-Line Water Hook-up Kit accessory available for online purchase.

- Level the unit – refer to Installation Guide for full instructions.
- Plug in power cord.

**CAUTION!** This unit requires connection to a dedicated 15 Amp grounded (three-prong), polarized receptacle, installed by a qualified electrician, compliant with applicable electrical codes.

- Turn unit on. Press and hold the Power Icon  for 10 seconds.

**CAUTION!** U-Line recommends allowing the unit to run 24 hours to stabilize in temperature before loading refrigerator or freezer with food or beverages. Failure to follow this warning may result in food or beverages becoming spoiled and damaged.

- Gently push the unit into position.

**CAUTION!** Be careful not to kink the water and/or drain line(s) or entangle the power cord. If door is left ajar the unit will show an error code and/or audibly beep.
