

30 INCH PRO-STYLE DUAL FUEL RANGE

BDFP34550SS / BDFP34550CSS

Contemporary European Design

Winner of the prestigious iF Design award, Blomberg ranges bring sophistication, thoughtfulness, and cutting-edge technology to the kitchen, harmonizing elegance with chef-worthy functionality with the effortless style your upscale home deserves. This balance is evident in every feature, from the sleek oven handle and sculpted ergonomic knobs to the beautiful LED lights under the bullnose that illuminate the controls and programmable electronic timer.

In Harmony with Your Life

20,000 BTU Burners

Ingenious Blomberg technology can actually help you refine your culinary skills! Flexible-power burners offer pre-set options for more precise cooking at different temperatures. The 20,000 BTU setting delivers high heat to speed up preparation with a fast boil or sizzle. Switching to the 675 BTU setting automatically adjusts to gentler heat, ideal for simmering delicate sauces, melting chocolate, or cooking fluffy rice like an expert.

Programmable Self-Clean Oven

Time is the ultimate luxury, and Blomberg ranges protect yours with high-tech programmable self-cleaning oven technology that lets you set exactly the right cycle. Set it for three hours, four hours, or five hours depending on the level of cleaning required. There's no need to scrub hard-to-reach surfaces, scrape up stubborn spills, or use harsh chemicals. At the end of the cycle, simply wipe away ash with a cloth.

Industry-leading Oven Capacity

Blomberg knows you can never have too much room in your oven, especially when you're entertaining. That's why we feature the largest oven capacity available in a 30-inch range, with 5.7 cu. ft. of cooking space to accommodate everything from holiday roasts to full-size commercial baking sheets. Dual interior lights and a large viewing window make it easy to monitor what's cooking.

Auto Re-Ignition

Blomberg ranges are designed to be intelligent as well as stylish and efficient. Safety is built in, with automatic re-ignition should a gust of wind, a spill, or a boil-over extinguish the burner flame at any time during cooking.

30 INCH PRO-STYLE DUAL FUEL RANGE

BDFP34550SS / BDFP34550CSS

Cooktop

- 5 gas burners
- 20,000 Btu power burner with simmering
