

Sabbath Mode

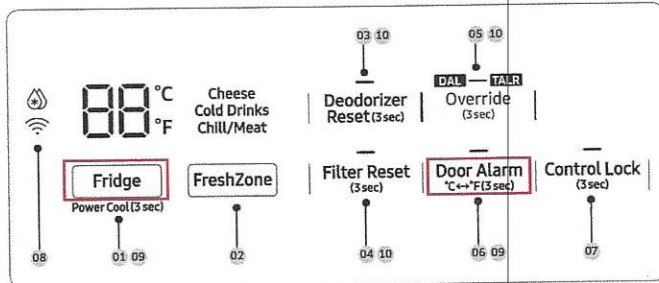

(For use on Jewish Sabbath & Holidays)

Modernist Refrigerators & Freezers

The Sabbath mode stays active for 85 hours once it is activated. After that, it will be deactivated automatically.

How to enable Sabbath Mode:

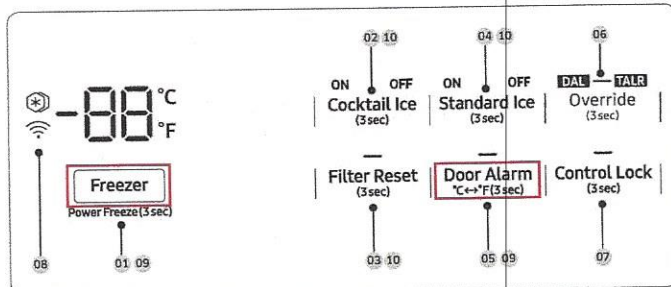

For Refrigerators

To activate, press and hold Fridge and Door Alarm simultaneously for 5 seconds to enter Sabbath mode. Then the refrigerator operates in Sabbath mode where the buttons, the display, and the room lamps are all under control.

To deactivate, press and hold the buttons again for 5 seconds to exit Sabbath mode

For Freezers

To activate, press and hold Freezer and Door Alarm simultaneously for 5 seconds to enter Sabbath mode. Then the refrigerator operates in Sabbath mode where the buttons, the display, and the room lamps are all under control.

To deactivate, press and hold the buttons again for 5 seconds to exit Sabbath mode

Quick Tips

- i. If the Control Lock indicator turns on, you must first deactivate Control Lock.
- ii. Even after the refrigerator powers off and restarts, the Sabbath mode remains active. To exit, you must deactivate it first.
- iii. If two refrigerator units are installed in pairs, you must set or change the settings of Sabbath mode for each refrigerator respectively.

General Sabbath Refrigeration & Freezer Guidelines

These models may be used on the Jewish Sabbath or the Jewish Holidays (Yom Tov) when placed in the "Holiday Mode for Sabbath/Holiday Observance." in accordance with the instructions below:

- i. The door can be opened/closed at any time without concern of directly turning on or off any lights, digital readouts, solenoids, fans, valves, compressor, icons, tones or alarms.
- ii. Any defrost cycle that becomes active will not be a function of the number of times or the length of time that the door is opened.
- iii. The ice maker is disabled automatically.
- iv. The cold water dispenser and all other dispenser functions are deactivated.
- v. In the event of a power failure, when power returns, the unit will return to this mode.
