

MERIDIAN™ SERIES

ICE AND WATER DISPENSERS

World-class care begins with world-class equipment.

Whether it's providing patient care in the healthcare environment or serving staff and visitors in breakrooms, office suites and other settings, a reliable dispenser helps get the job done. In fact, it can contribute to better efficiency and morale, and even comfort and safety.

That's why the experts at Scotsman created the Meridian™ Series, a powerful new lineup of ice and water dispensers designed with your facility's unique space, production and installation needs in mind. With the Meridian™ Series, you get premium reliability, time-saving serviceability and intuitive cleanability — along with the softest, most satisfying ice form available on the market today.

Scotsman
ICE THE WORLD DEMANDS

meridian™ 

Internal LED indicator lights alert maintenance staff when it's time to descale, sanitize and more

Every model features a convenient QR code for quick access to manuals, parts lists and warranty history information

Our proprietary greaseless bearing is fully sealed with a special polymer that provides lubrication without the need for greasing

Unique external air filter location improves breathability and accessibility, while requiring less side clearance

Scotsman. A true industry leader.

As the world's largest manufacturer of ice systems with over 300 models of ice machines, bins and dispensers, Scotsman is dedicated to developing the next-generation technologies that make ice production more convenient, efficient and reliable. More than 99% of Scotsman ice equipment is American-manufactured at our award-winning production facility in South Carolina.

The Meridian™ difference.

SMARTER CONSTRUCTION

The Meridian™ Series features stainless steel components, larger sink drain openings and enhanced, high-tech dispensing that helps prevent overflow. And AquaArmor with AgION™ is molded directly into key components to help inhibit the growth of bacteria.

QUIETER OPERATION

With its improved condenser fan function, the Meridian™ Series delivers the ice you need without the distraction of noisy equipment — helping maintain the most comfortable, inviting environment possible for staff and patients alike.

SPACE-MAXIMIZING DESIGN

The Meridian™ Series offers the industry's smallest available operational footprint relative to capacity, making any model ideal for crowded nurse stations and other areas where space is at a premium. And with Scotsman's specially designed contoured side panels and external air filter, you'll get more breathability with minimal clearance required.

MORE CONVENIENT FRONT ACCESS

A unique removable front panel makes it easy to access and service all key internal components, saving valuable time. The Meridian™ Series also features a removable storage bin for even better access for scheduled cleanings and maintenance.

ENHANCED SERVICE FEATURES

Whether it's Scotsman's convenient USB drive that allows fast software updates without replacing the control board or a new removable sink and grill that provide maximum access for easy cleaning, the Meridian™ Series helps reduce service and maintenance time at every step.

Model options.

HID312
260 lbs./day
stores 12 lbs.

HID525
500 lbs./day
stores 25 lbs.

HID540
500 lbs./day
stores 40 lbs.

Options include 4" adjustable legs for easy cleaning underneath the unit, newly designed stands with a lockable hinged door for internal storage, as well as available wall-mount versions.

All Meridian™ Series models come with Scotsman's industry-leading three-year parts and labor warranty on the full unit, plus exclusive five-year parts coverage on compressors and condensers.

For more information on our complete line of Meridian™ Series products, call **1-800-SCOTSMAN (1-800-726-8762)** or visit www.scotsman-ice.com.
