CLEARANCE DIMENSIONS

CUSTOM PANELS

With Trim Kit

Without Trim Kit

Flat panel

A 7/32 in. (5.6 mm) thick panel is required. This is the same thickness as a standard 1/4 in. plywood or paneling.

Raised panel

A. Raised panel or decorative trim
B. Outer section of panel
The outer section of panel must be 7/32 in. (5.6 mm) thick to fit into trim. Design raised panel sections using dimensions shown above.

Models with handles

Panel should be 1/2 to 5/8 in. (13 to 16 mm) thick. NOTE: A thicker panel may need rounded front corners and a cutout for access to the handle.

Models without handles

Panel should be 1/2 in. (13 mm) min. thickness
