**COUNTERTOP INSTALLATION**

1. Install Undermount Sinks according to Undermount Sink Installation Guide before installing countertop.

2. Apply bead of quality sealant evenly along the top of the vanity.

3. Apply silicone sealant evenly along the bottom of backsplash and wall.
Finally, place the bottom side of back splash with sealant onto the countertop and check alignment of backsplash.
Adjust the leg levelers as needed.

**NOTE:** Sink style, shape, faucet holes, cutout on top, vanity may vary from the picture above. Instructional purposes only.

**CARE AND CLEANING**
For best results in caring for your stone top, we suggest:
- Always wipe off spills immediately.
- Seal the stone top regularly with a good quality stone sealer.
- Never use strong / abrasive cleaner. Always test your cleaning solution on unnoticeable areas before applying to the entire surface.
- Wipe surfaces clean, immediately after applying cleaner.
- Do not allow cleaner to sit or soak. Never let cleaners sit on the surface of the stone for long periods of time.
- Use a soft, dampened sponge and cloth. Never use an abrasive material such as brush or scouring pad to clean surfaces. They will scratch the surface of the stone top and lavatory.
- Always rinse and wipe clean the fixtures to prevent soap buildup.
