BACK BAR COOLERS

MCBB24-1B

MCBB24-1BG

FEATURES

Maxx Cold's back bar coolers with stainless steel top are designed to keep cold beverages at the optimum temperature for serving customers. The entire cabinet is foamed in place with low ODP polyurethane insulation. The galvanized steel interior with stainless steel floors and a wall thickness of 1.5" guarantees years of cold refrigeration. The self-contained, slide out unit uses R-134A refrigerant and comes equipped with coated evaporator coils and a condensate evaporator. Temperature ranges from 32°F to 40°F (0°C to 4°C).

- Painted black coated steel exterior.
- Galvanized steel interior.
- Stainless steel interior floor.
- Stainless steel top.
- Slide out condensing unit for easy cleaning and servicing.
- Epoxy coated evaporator coils resist corrosion.
- Standard 4" casters.
- 1 door has 2 shelves.
- Available in 115V/60HZ, 220V-230V/60HZ
- B models: Solid doors with locks.
- BG models: Glass doors with locks.

Specifications subject to change without notice.

Approvals: ETL, ETL Sanitation approved
